Your Guide to Clean

Commercial and Industrial Floors

When the customer wants simplicity and protection at a reasonable cost...

Constant Shield® LD-1000 is the most economical, easy to install coating that requires only basic surface preparation.

- For light to moderate duty applications
- Fast application with tank applicators
- Does not require acid etching
- Exceptional water resistance

When the customer wants the toughness that only an epoxy coating can provide...

Constant Shield® HD-3000 offers the highest level of performance comparable to solvent based epoxies. Available in Light Gray.

- Applies easily
- Ideal for non-skid safety floors
- Excellent adhesion to damp concrete

When the customer wants to add a little pizzazz to their floor...

Decorative HD-3000 is a special kit that contains multi-colored chips that are broadcast into the wet coating. Available in Light Gray.

- Great for garage floors, lockerooms, restrooms, and much more
- Proven epoxy performance

Formula 340 is our strongest degreaser designed for use in automatic scrubbers. Cuts dirt, emulsifies oil, and helps remove tire marks.

Century Maintenance Cleaner effectively removes soil without leaving a residue. The perfect cleaner for polished concrete and where a conventional floor care program is used.
