Re: DfE Recognition for Multi-Clean Products

Dear Mr. Elms:

The U.S. Environmental Protection Agency applauds Multi-Clean for your leadership in developing an environmentally-oriented set of Industrial and Institutional (I/I) cleaning products. EPA's Design for the Environment ("DfE") program seeks to promote the use of products with improved environmental and human health characteristics. The products in our partnership—#70 Tough green-Formula #908970, Tough Green Enviro Cleaner/Degreaser-Formula #903970, and #3 Eliminator 3-Formula #908730—fully achieve that objective in the I/I cleaning product sector.

The key purpose of the DfE-Multi-Clean partnership is to recognize and encourage the environmentally preferable chemistry of the partnership products. DfE is very enthusiastic about your successful formulation of these products and about our partnership. By eliminating hazardous solvents, environmentally persistent surfactants, and other harmful ingredients, you have demonstrated active environmental stewardship and dedication to continuous improvement.

Individuals who use your recognized products will be participants in this important national effort to protect the environment and safeguard human health. I commend Multi-Clean for your commitment to improving the environmental profile and performance of your products—and for leading change in the cleaning industry. DfE looks forward to building this partnership and wishes you much success with the partnership products.

Sincerely,

A handwritten signature in black ink that reads "Clive Davies". The signature is fluid and cursive, with a prominent "C" and "D".

Clive Davies, Chief  
Design for the Environment
