

Super Synthe-Clean™

High Foaming Carpet Shampoo

SUPER SYNTHE-CLEAN Carpet Shampoo contains a high foaming formula that performs in either hard or soft water. This shampoo cleans effectively at a mild pH. Recommended for use on all types of carpeting including stain resistant nylon carpeting.

High Foaming/Controlled Wetting

Super Sythe-Clean features high foaming with controlled wetting action. When used properly, carpets will not be overly saturated. It penetrates into the carpet and gently lifts out the dirt and grime. Its cleaning action is vigorous and drying is fast. High foaming and foam stability help to insure deep cleaning.

Use to clean Upholstery

SUPER SYNTHE-CLEAN can also be used to deep clean upholstery. Use on fabrics that are rated for water-based cleaners. NOTE: Some upholstery fabrics are not water washable. If in doubt, a small test patch should be tried.

DIRECTIONS:

1. Vacuum rug or carpets thoroughly before shampooing.
2. Recommend 7 to 8 ounces (65 ml/liter) of SUPER SYNTHE-CLEAN to each gallon of water.
3. If necessary, spot areas to be cleaned to determine if they are color-fast.
4. Scrub carpet with scrubbing machine or by hand.
5. Pick up foam and dirt from carpet with a wet-dry vacuum after scrubbing small area (i.e. 300 sq. ft.).
6. To ensure no residue, rinse/extract carpets with fresh water.
7. Carpet should be re-vacuumed when completely dry.

SUPER SYNTHE-CLEAN Carpet Shampoo contains a high foaming formula that performs in either hard or soft water.

Properties

Appearance	Aqua blue liquid
Fragrance	Apple blossom fragrance
pH	9.8 - 10.0
Specific Gravity	1.03
Flashpoint	> 210°F
Percent Active	10.0 minimum
