

Carpet Spotting Kit

The **Carpet Spotting Kit** contains five specialized carpet spot removers formulated to remove a wide assortment of stains from commercial and institutional carpeting. An easy to follow, spotting guide simplifies effective spot removal with step-by-step instructions. Spotting chemicals are clearly labeled to match the spotting guide.

Generally, one all-purpose spotter is not capable of removing all of the possible types of stains and odors found in carpets. Instead, a series of specialized spotters when used in specific orders as outlined in the spotting guide, can effectively remove just about any spot.

The Carpet Spotting Kit consists of:

#101 Carpet Spotter

General purpose alkaline spotter for removing greases, oils, traffic spots and other assorted spots.

#102 Beverage Stain Remover

Mild acid spotter formulated to remove stains caused by coffee, tea, cola, beer, wine, fruit juice, and other similar stains.

#103 Take-Out

High performance carpet spotter formulated to remove food stains. Also used for catsup, blood, vomit, chocolate, tomato and other similar stains.

#104 Bio-Power

Biological odor neutralizer. Use to neutralize putrid odors from stale urine, rotting garbage and other similar sources.

#105 Non-Volatile Dry Spotter

Solvent blend formulated to remove paint, oil, grease, tar, lipstick, shoe polish and ink stains. Contains no chlorinated solvents.

Kits also include: Brush, Spotting Guide and Caddy

Spotting chemicals are clearly labeled to match the spotting guide.

Properties

Replacement Part Numbers:

#101 Carpet Spotter (case/6 pints)	910671C
