

ECO₂

Encapsulating Cleaner with Oxygen

The **ECO₂ Carpet Cleaner** from Multi-Clean is a low moisture system that encapsulates soil for easy removal and leaving no residual. Hydrogen peroxide supplies oxygen (O₂) to help destroy odors and power out soils, leaving carpets looking and smelling clean.

The Benefits

Encapsulation of Soils: Clean Carpets Stay Clean Longer - Encapsulation technology uses a crystalline polymer that surrounds soils and detergent residues. When carpet is dry, the brittle polymer fractures, creating particles that are easy to vacuum, leaving carpets virtually free of contaminants. Contaminant free carpet means NO sticky residue that can promote re-soiling, allowing carpet to stay clean longer.

Low Moisture: Dramatically Reduce Downtime - Return carpets to service is as little as 1 hour. Use a cylindrical brush machine equipped with nylon brushes or a conventional floor machine with a carpet brush or spin bonnet to work ECO₂ into the carpet.

Fresh Carpets: Oxygen Attacks Stains and Freshens Carpets - Odor causing bacteria, mold and mildew, can proliferate in carpets under the right conditions, causing malodors. The oxygen in ECO₂ allows for color safe bleaching of stains and ability to destroy odors in carpets leaving it look and smell clean.

Directions

1. Vacuum carpet thoroughly. 2. Mix ECO₂ with water in a low pressure pump up sprayer. 3. Apply the solution to an area of carpet no larger than 400 sq.ft. 4. Allow to stand 1-5 minutes, then agitate with a counter rotating cylindrical brush machine using soft nylon (black) brushes. Alternative: a floor machine equipped with a pre-moistened spin bonnet can also be used. Allow carpet to dry 30-60 minutes before opening to traffic. 5. Vacuum floor as time permits.

Training materials: Multi-Clean Method Bulletin 1401, "Carpet Care" provides detailed carpet care procedures.

Clean and fresh carpets fast, with no residue!

Properties

Appearance	white, milky
Fragrance	mild citrus
pH	4-6
Polymer	acrylic
% Hydrogen peroxide	3-4%
Dilution Rate	Normal: 1:32 (4 oz/gal.) Heavy: 1:10 (12 oz/gal.)
Coverage	11,000 sq. ft/gal (conc.)
Shelf Life	12 months under normal conditions

Environmentally Responsible

Recognized for Safer Chemistry
