

Freezer Cleaner

Multi-Purpose Cleaner

Multi-Purpose Cleaner for use in Freezers

A highly effective and powerful cleaner, designed to be used in walk-in freezers and any cold storage areas. It will clean very well without dilution under sub-zero temperatures. Potable water rinse is not required and the used cleaning solution can be removed by wiping or mopping. A wet vacuum or automatic scrubber can also be used under sub-zero temperatures only.

FREEZER CLEANER contains special builders and surfactants. It also contains methanol which is flammable. Do not work around flame or spark sources. FREEZER CLEANER will not ignite below 60°F, and that means it is absolutely safe to work with in coolers and freezers below 60°F.

FREEZER CLEANER meets USDA Performance Requirements for A-5 type products.

DIRECTIONS: 1. Use FREEZER CLEANER straight, not diluted, for temperatures between -40°F and -10°F. 2. For temperatures between -10°F and 32°F, FREEZER CLEANER may be diluted at 3:1 (3 parts Freezer Cleaner to 1 part water). 3. Apply with an automatic scrubber, mop, sponge, etc. No rinse is necessary. 4. FREEZER CLEANER is flammable and may be ignited at temperatures at or above 60°F. Work with FREEZER CLEANER only when its temperature and the room temperature are below 60°F.

Freezer Cleaner is designed for use in walk-in freezers and any cold storage areas.

Properties

Color	Red Liquid
Odor	Fresh Fragrance
pH	11 - 12
Specific Gravity	0.949
Flashpoint	60°F
Water Temperature	Cool (<60F)
Phosphate-Free	Yes
Readily Biodegradable	Yes
Storage Stability	1 year normal conditions
Freeze-Thaw Stability	Passes 3 cycles.
USDA Approval.....	Yes
