

# Mastery-dL<sup>®</sup>

## Multi-Purpose Citrus Solvent Cleaner/Degreaser

MASTERY-dL is a solvent based cleaner with the power of natural d-Limonene removing stubborn materials that other cleaners can not. Mastery contains 70% d-Limonene (citrus solvent). Use Mastery-dL to clean concrete, metal and other solvent resistant surfaces and objects. It can be applied with a mop, brush, sponge, trigger or pump-up sprayer or by soaking.

Mastery is especially effective against: Tar, Asphalt, Adhesives, Cut-Back Adhesive, Oil, Grease, Chewing Gum and Rubber Tire Marks.

### Adhesive Removal

When removing old tile glued down with asphalt cut-back adhesive (black color), Mastery-dL will dissolve the adhesive for quick removal.

### Water Rinsable & Dilutable

Mastery-dL contains emulsifiers allowing it to be rinsed off surfaces with plain water. Mastery-dL can also be diluted with water for cleaning a variety of surfaces, simply add it to water at 4 to 32 ounces per gallon. It will form a stable cleaning emulsion.

### Carpet Spotting

Mastery-dL can be used for stubborn spots that normal spotters won't remove such as tar, asphalt, gum residues, etc. Apply it to a cloth and used to blot the stain. *Do not apply directly to carpet.* Rinse thoroughly.

### Removes Rubber Tire Marks

Apply Mastery dL to rubber tire marks with a trigger or pump-up sprayer at full-strength. Let sit for a few minutes and then agitate with a brush, floor machine or double scrub with an autoscrubber. Scrub floor with a solution of Formula 340 and pick up spent solution.

*NOTE: Mastery dL is a strong solvent and will attack many plastics. Test before use. It should not be used in the solution tank of automatic scrubbers or carpet extractors. As with other solvent cleaners, rubber gloves should be worn when working by hand and breathing spray mist should be avoided.*

d-Limonene, the solvent in MASTERY-dL is a natural solvent from citrus peel oil.

### Properties

Appearance .....	Amber liquid, citrus odor
pH .....	10.2 ± .2
Specific Gravity .....	0.89
Flashpoint .....	>120°F
Viscosity .....	Low
Dilution .....	Heavy soil: straight Medium soil: 12 oz./gal. of water Light soil: 2 oz./gal. of water.
Solvency .....	Excellent
Rinseability .....	Very good
Phosphate Builders .....	None
Chlorinated Solvents .....	None
Petroleum Distillates .....	None
Storage Stability .....	Store between 45° and 100°F.
Freeze/Thaw Stability .....	Freezes below 20°F. If chilled or frozen thaw, stir well and inspect for damage.

### Packaging

55 gallon, 906977  
1 gallon, 906973
