

Phos-Clean

Bowl and Tile Cleaner

Phos-Clean Bowl and Tile Cleaner contains 20% Phosphoric Acid which will cut through hard water scale, lime, rust or soap scum deposits with ease without damaging surfaces or chrome fixtures. Phos-Clean is formulated to provide cling that allows the cleaner to stay in contact with the areas to be cleaned longer which provides better cleaning with less effort.

Great Grout Cleaner

Phos-Clean will clean grout back to its original clean appearance. Apply Phos-Clean directly to the grout, let sit for 10 minutes, agitate with a brush and rinse with fresh water. Let dry and the grout will look like new.

Use on all Restroom Fixtures

It will also remove stains and scale off of water fountains, milk coolers, chrome fixtures or steam tables. It should, however be rinsed well. Use in toilet bowls, urinals, tubs, ceramic tile, quarry tile, stainless steel, chrome, fiberglass or any other surface not harmed by mild acids.

Use straight in toilet bowls, urinals or on grout. Dilute 1 part Phos-Clean to 3 parts water for cleaning sinks, showers, chrome fixtures, bathtubs, drinking fountains.

Quart Refill System

Phos-Clean is part of the QRS (Quart Refill System) which is a program designed to allow customers to refill empty Phos-Clean bottles from five gallon BIB's (Bag-in-Box), with no mixing funnels, pouring or mess. It provides the advantage of quart convenience with economical five gallon pricing.

Safety First

Always wear rubber gloves and eye protection whenever working with any cleaning chemical. Do not use on marble, terrazzo or natural stone. Do not mix with other chemicals, especially alkaline, ammonia or bleach cleaners.
