

Wax & Finish Stripper

Non-Ammoniated Finish Stripper

WAX AND FINISH STRIPPER has been formulated especially for stripping wax and/or finishes from tile floors. It is effective for easy and complete removal of even the heaviest build-ups of wax and/or finish.

Strong Formula

Wax and Finish Stripper is made up from a powerful blend of nonionic & anionic synthetic detergents, alkaline builders and a powerful ammonia substitute. WAX AND FINISH STRIPPER is low foaming and its penetrating action and removal power are both excellent.

Safe for Use on Asphalt Tiles

Wax & Finish Stripper is designed for use on sensitive floors, such as 9" x 9" asphalt tile floors. Asphalt tile can be sensitive to solvents found in many traditional floor finish stripper which can cause the tile color to fade.

Use on all Types of Floors

Wax and Finish Stripper can also be used with complete safety on resilient tile, concrete, terrazzo, ceramic tile, rubber or most other types of floors. It will not discolor or damage basic floor materials. And because of its high removal power, it is an excellent cleaner for heavily soiled cement-type floors.

WAX AND FINISH STRIPPER is biodegradable.

Wax & Finish Stripper is designed for use on sensitive floors, such as 9" x 9" asphalt tile floors.

Properties

Appearance	Light amber liquid, mild lemon odor
pH	13.0 - 14.0
Specific Gravity	1.044 - 1.048
Flashpoint	None
Base Detergent	Nonionic - Anionic
Dilution	Normal build-up: 12-16 oz./gallon Heavy build-up: 24 oz./gallon Wax: 8-16 oz./gallon
Foamability	Moderate
Foam Stability	Low
Hardwater Tolerance	Good
Detergency	Excellent
Biodegradable	Yes
Phosphate-Free	Yes
Storage Stability	Excellent, 1 year normal conditions (40°-100°F)
Freeze-Thaw Stability	Passes three cycles. Usable after thawing with no change in performance. Agitate after thawing.
