

U-Fill Foamer

Multi-Task System

Portable Multi-Task Application

The Multi-Task U-Fill Foamer allows users to apply properly diluted Multi-Task foaming cleaners directly to surfaces being cleaned for fast, easy and efficient cleaning of shower rooms and other restroom surfaces. Simply connect the U-Fill Foamer to the appropriate concentrate, attach to cold water supply and it's ready to use. Features include an on/off trigger valve, quick disconnect, and rotating selector valve for product or water rinse. Foam walls in restrooms, shower rooms, locker rooms, with 4 Foamy Mac to remove mineral deposits and soap scum build-up.

The U-Fill Foamer allows dispensing of foaming cleaners directly onto verticle surfaces. Valve control allows easy water rinsing. Part 421740
