

Floor Degreasing with Enzyme Action Using Enzy-Clean

Post wet floor signs and restrict access to area.

Sweep floor.

Fill mop bucket with fresh solution, use cold water only.

Apply solution with mop. Allow solution to penetrate grease and soil.

Agitate with a stiff bristle brush. Allow to dwell on floor for 5 minutes.

Mop up solution or squeegee to floor drain. Allow floor to air dry prior to opening to traffic.

The Multi-Task two liter container allows for dispensing via wall mount unit, Easy Fill Gun, or squeeze N Pour.

Enzy-Clean bio-enzymatic degreaser is designed to break down grease and soil in food service areas.
