

Floor Care

ROS-17 Orbital Floor Machine

For multi-purpose cleaning & restoration. The ROS 17 is a multifunctional orbital floor machine. The orbital technology allows you to clean/restore every floor surface. The ROS 17 combines traditional rotary scrubbing with orbital oscillation technology in one machine. The rotary motion spins at 80 RPM and the micro orbit oscillation is 1,725 orbits per minute. This combination of the two technologies increases performance, efficiency and productivity

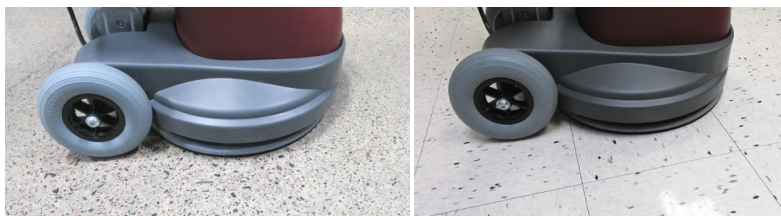

Random Orbital Technology

Revolutionary technology adapted to standard scrubbers and automatic scrubbers. This highly efficient orbital action maximizes productivity, cleaning ability, water/ chemical reduction and ROI. The technology eliminates user fatigue associated with additional steps required in standard scrubbing and restoration tasks.

Ceramic Tile

Carpet

Polished Concrete

VCT Tile

Features

- Lift Handle
- Velcro Driver Plate
- Base Flips for Easy Pad Installing
- Free Floating Base, Full Floor Contact

Technical Specifications

Pad driver size: 17"
Amps: 12 Amp
RPM: 1725 OPM Micro Orbits, 80 RPM Rotation
Motor: 1.5 Horsepower
Pump Control: Multi-Position Switch
Cord: 14/3 Gauge Pigtail, Standard Plug
Sound Level: 62 DB
Wheels: 10 inch diameter
Spray Tip: Single, Anti-Drip, Adjustable
Pump: 90 PSI Oscillating Pump, No Priming
Spray Tank Capacity: 3.9 Gallon
Optional Weight: Sets 37 lbs. each, 2 maximum
Dimensions: 48"H x 19"W x 28"L
Motor Height Clearance: 12.5"

Pads and Brushes

Striped Bonnet

Green Turf pad

Nylon brush
