

OPEN FOR BUSINESS

IN THE COVID-19 ERA

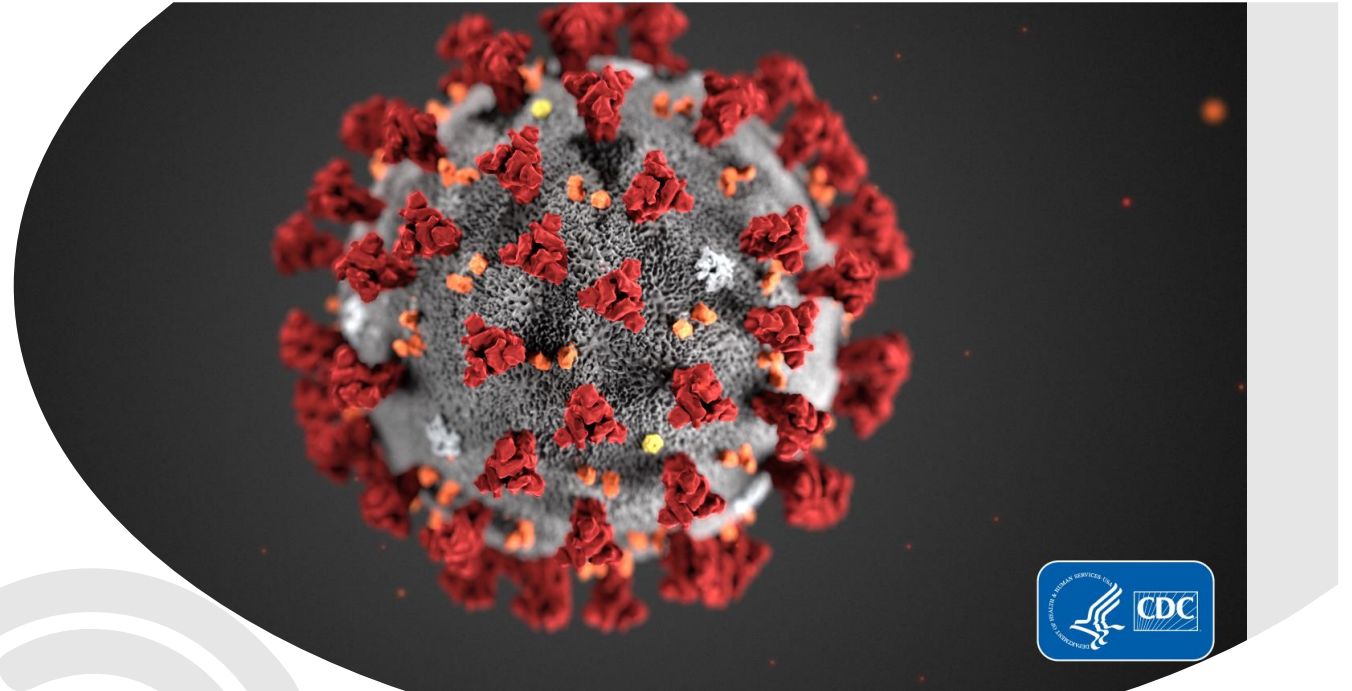

WEBINAR #2

JUNE 18, 2020

WEBINAR #2 AGENDA

- Facility Disinfection Plan
- How to Properly Disinfect
- High Touch Disinfecting
- EPA List N
- E-Spray Electrostatic Sprayers
- What to look for in a disinfectant

IT'S ABOUT MAKING PEOPLE FEEL SAFE

- Employees
- Visitors
- Customers
- Students
- Staff

FAQ'S

- Should I clean before I disinfect?
- What about contact time?
- How long is a surface protected?
- Can disinfectants be used in a fogger?
- What disinfectants are approved for use against the human corona virus

HOW TO PROPERLY DISINFECT

- Cleaning and Disinfecting are different
- Disinfectants have wet contact time
- Wiping to dryness is cleaning
- Leaving surfaces visibly moist is disinfecting

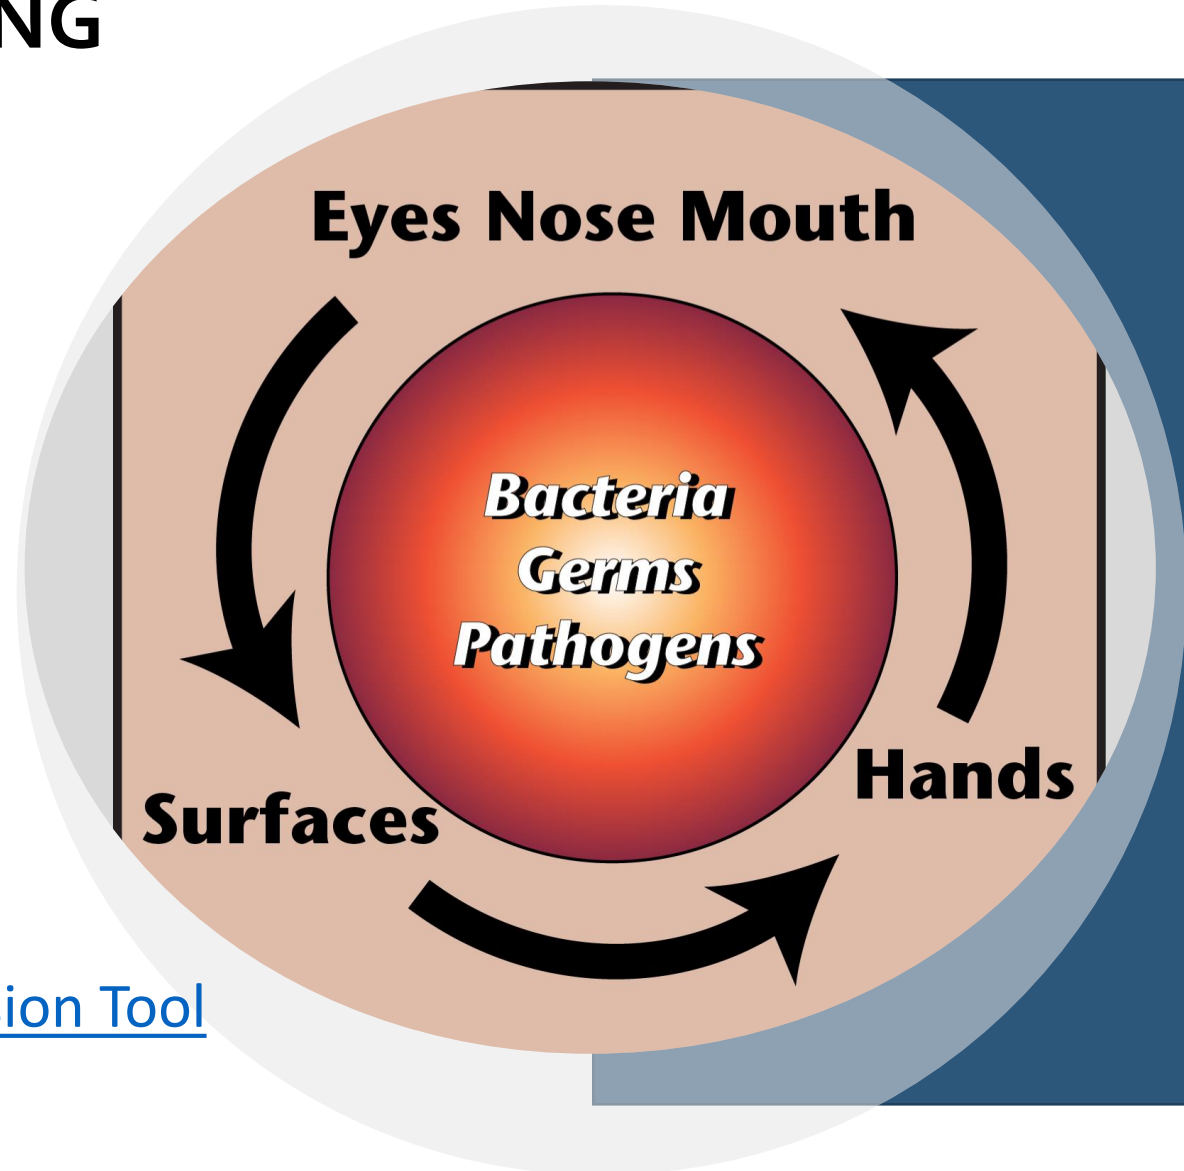

WHAT'S YOUR PLAN?

Cleaning and Disinfecting is a key part of any business re-opening plan

CLEANING & DISINFECTING

1. Develop Your Plan
2. Implement
3. Maintain and Revise

[CDC Cleaning and Disinfection Decision Tool](#)

1. DEVELOP YOUR PLAN

- Select Disinfectants
- What Needs to be Cleaned
- What Needs to be Disinfected

Unoccupied spaces for 7+ days
do not need to be disinfected before
re-opening.

[CDC Cleaning & Disinfecting Plan Guidance](#)

DISINFECTING FLOOR TO CEILING IS NOT NECESSARY

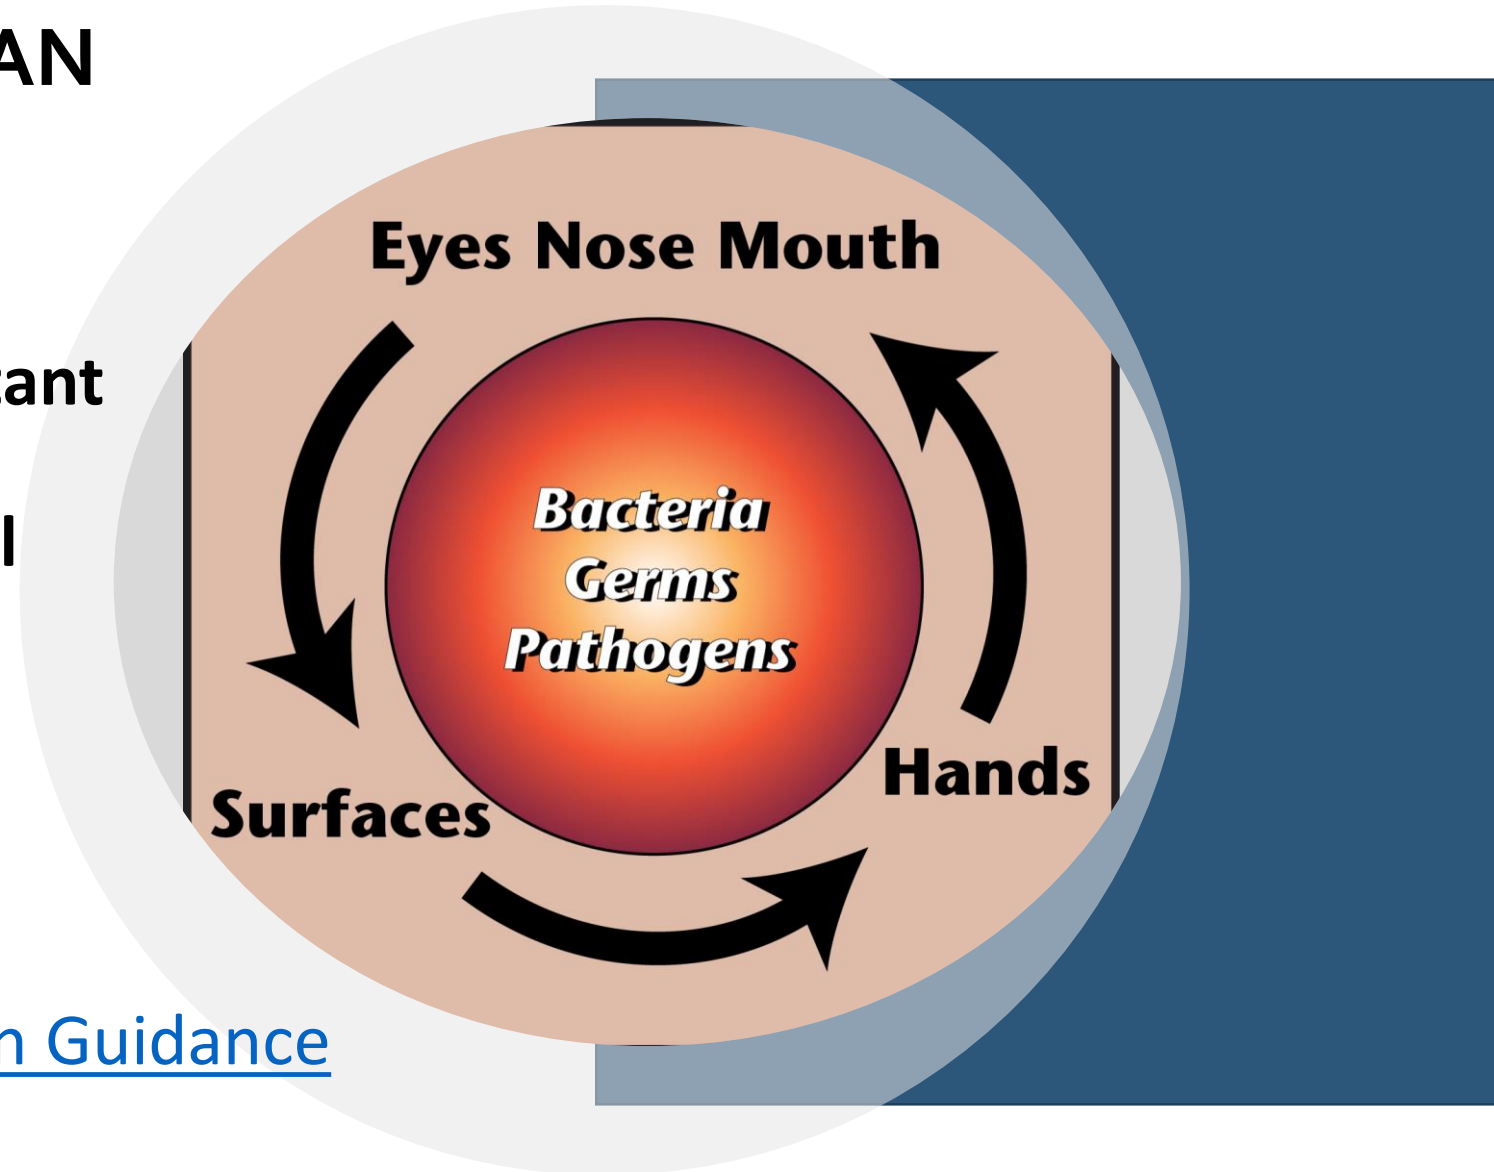

- High Touch Disinfecting
- Make your high touch checklist
- Other surfaces can be cleaned
- Disinfecting Properly

1. [High Touch Disinfecting](#)
2. [High Touch Checklists-Industry Specific](#)

2. IMPLEMENT YOUR PLAN

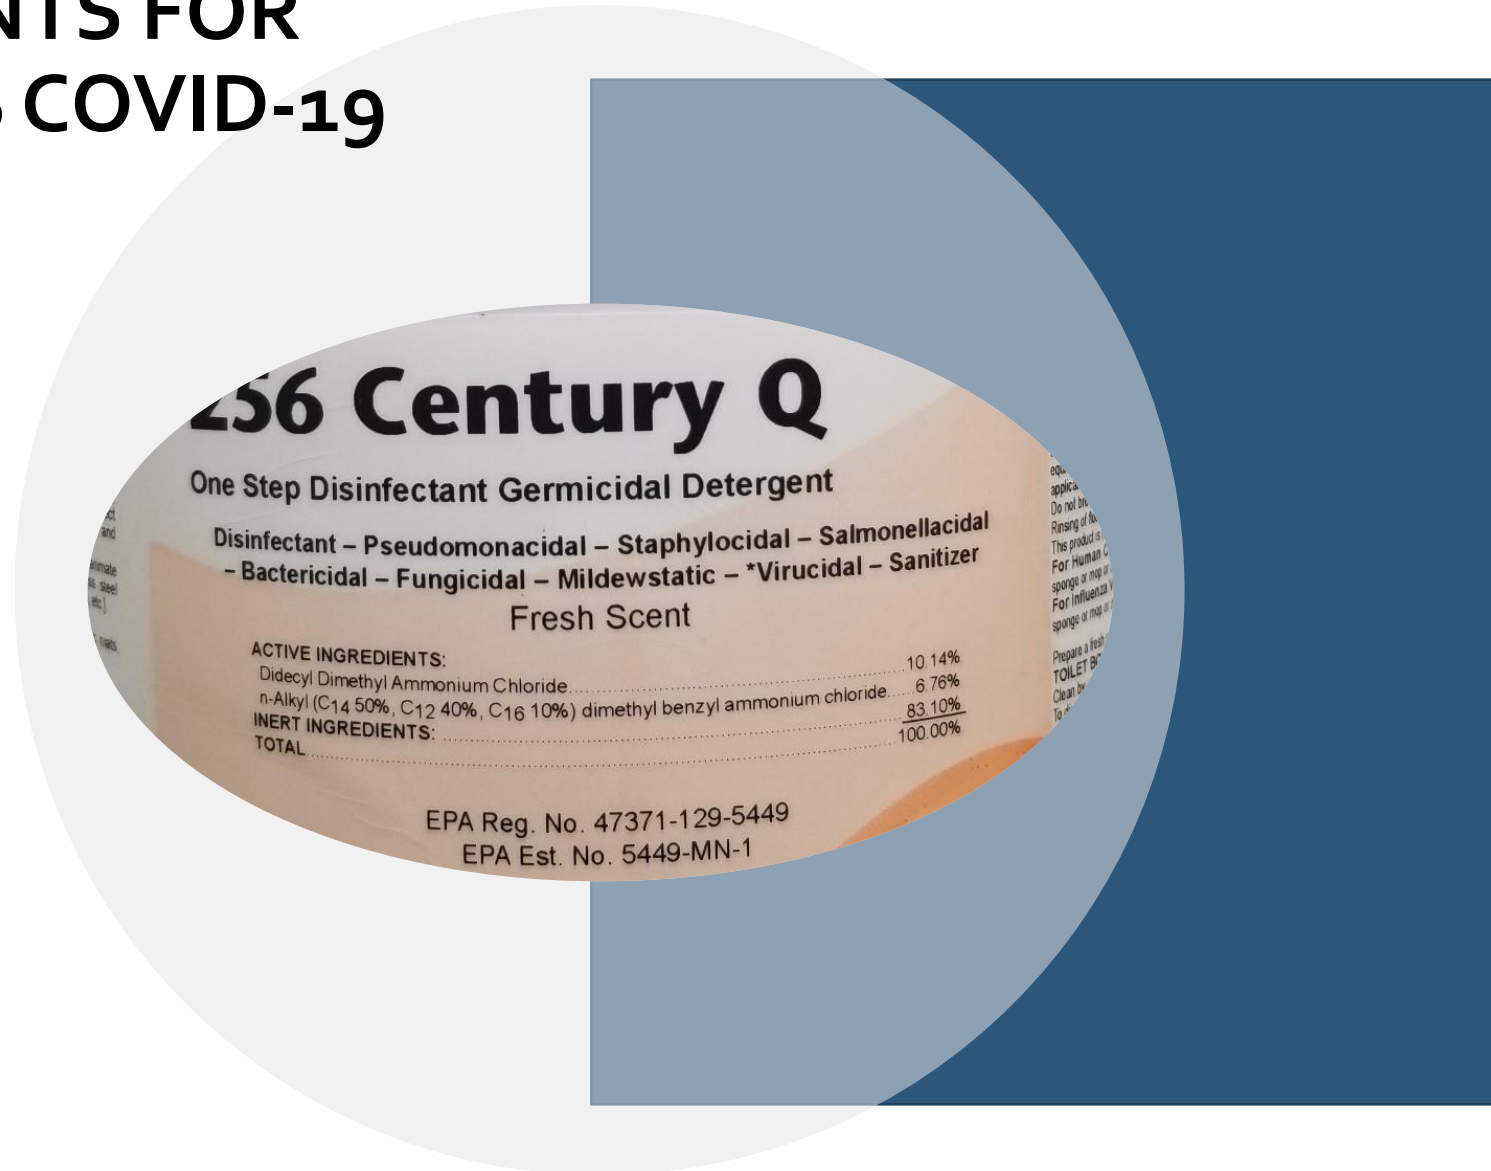

- Clean visibly dirty surfaces
- Use the appropriate disinfectant
- Follow directions on the label

[CDC Cleaning & Disinfecting Plan Guidance](#)

APPROVED DISINFECTANTS FOR THE VIRUS THAT CAUSES COVID-19

- EPA List N
- 2-Types of Disinfectants Listed
- Emerging Viral Pathogen Claims
- Claims for Human Corona Virus
- Know the EPA registration #

EPA LIST N

MAINTAIN AND REVISE AS NEEDED

- ☐ Continue and enhance routine cleaning
- ☐ Revise practices specific to the type of business
- ☐ Remove soft surfaces as much as possible
- ☐ Consider removing frequently touched items
- ☐ Maximize Fresh air intake
- ☐ Minimize fans and blowers directed at people.

DISINFECTANT APPLICATION TERMINOLOGY

- Fogging: Very small droplet size
- Misting: Small droplet size
- Spraying: Medium to Large Droplet Size
 - Trigger Spray: Targeted Spraying
 - Pump Sprayer: Targeted Spraying
 - Electronic Airless Sprayers: Wide Area Spraying
 - Electrostatic Sprayers: Targeted Spraying

E-SPRAY

- Electrostatic Sprayers

Germ Hot Spots

VIRAL DISINFECTION KIT

- Makes 4 quarts using your own water
- Light weight – only 2.5 lbs
- Incl bottles, sprayers, microfiber, instructions
- Great for the office share among 4 employees
- Re-Fill kits available
