NEW: E-Spray on Wheels

Now available: E-Spray Backpack Mobile Cart Part No. 421658 for easy mobility!

Extension Wands help get closer to objects. Using an extension wand on Hand Held or Backpack units increases efficiency and makes the job easier. Best Results are achieved when the nozzle is 12-18 inches away from the object that is being sprayed. We have a 24" and 12" for use with either Hand Helds or Backpacks.
