- Shines

Stainless Steel

Non-Smearing

Stainless Steel Cleaner, formulated to polish and clean stainless steel surfaces and removes fingerprints, oils, dirt, water spots, and other residue. It is effective on chrome, brass, sealed wood, etc. Stainless Steel Cleaner will leave a streak-free shine without oil residue that most polishing products on the market have.

Leaves a Protective Coating

Besides cleaning and polishing, Stainless Cleaner will leave a protective topcoat that helps resist fingerprints, dirt, smudges and dust resulting in less time cleaning and polishing in the future.

Food Service

Stainless Steel Cleaner is acceptable for all non-food contact surfaces like stainless steel racks, sinks, counters, tables, ovens, refrigerators etc. If used on surfaces that may come into direct contact with food, clean and rinse surfaces before use.

Directions

Spray Stainless Steel Cleaner directly on surface or cotton cloth. Wipe in a circular motion to spread over the entire surface. Next, wipe in the direction of the grain. Flip the towel over and buff until metal finish is clean and polished. Note, do not use microfiber towels.
