# Extraction

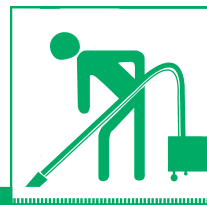

## Low Foam Carpet Cleaner

- Use In All Extraction Equipment
- Cleans Carpet Fast
- Concentrate Saves Money.
- Can also be used for Pre-Spray

# Extraction

## Low Foam Carpet Extraction Cleaner

EXTRACTION is a mild pH, low-foaming carpet cleaner containing detergents, emulsifiers and water-soluble solvents that will clean dirt, grease and stains making carpet look like new. EXTRACTION should be used in conjunction with PRE-TREAT as a traffic lane pre-spray on very heavily soiled traffic areas.

### Concentrated / Economical

EXTRACTION is highly concentrated for economical, but effective use in all types of water extraction carpet cleaning equipment.

### Use in all Extraction Equipment

EXTRACTION will not clog spray jets or otherwise interfere with equipment operation. This mild pH formulation is safe for use on most carpets, including stain-resistant 5th generation nylon.

Also, we advise DEFOAMER be used in the recovery tanks of extraction machines if carpets being cleaned have been previously shampooed or bonnet cleaned. Always pre-test carpet products in an inconspicuous area for color fastness prior to general application.

### Eco-Preferred

EXTRACTION contains biodegradable surfactants and water soluble solvents. It does not contain chlorinated solvents, NPE's, butyl, petroleum distillates or free alkali.

#### Use to clean Upholstery

Extraction can also be used to deep clean upholstery. Use on fabrics that are rated for water-based cleaners. NOTE: Some upholstery fabrics are not water washable. If in doubt, a small test patch should be tested.

**Low Foam Concentrated Carpet Shampoo  
for Use in all Extraction Equipment.**

#### Properties

Appearance .....	Low viscosity liquid, bright green.
Scent .....	Fresh & Clean
pH .....	9 - 10 (Concentrated)
Specific Gravity .....	1.036 - 1.041
Dilution .....	1 oz. per gallon
Flash Point .....	None
Hardwater Tolerance .....	Excellent
Biodegradable .....	Yes
Phosphate-Free .....	Yes
Storage Stability .....	Excellent, 1 year normal conditions
Freeze-Thaw Stability .....	Will freeze. Usable after thawing and agitation. Check for settled material.

VOC Compliant - VOC Free

All Multi-Clean products are proudly manufactured in the United States of America.
